BY-LAW NO. 42.

A by-law to provide for the draining of the north-east portion of Township 26, and west portion of Township 29, District of New Westminster, and within the boundaries of the Corporation of the Township of Chilliwack, to be known as the "Elk Creek Draining Scheme" and for borrowing on the credit of the said Corporation the sum of five thousand (\$5,000) dollars for completing the same.

WHEREAS Andrew Smith, John Stady, and twenty-four others, with a total assessment of \$61,337, being a majority in number and value of the owners as shown by the last revised assessment roll, of the property hereinafter set forth to be benefitted by the construction of the drainage works hereinafter provided for, have petitioned the Council of the said Corporation praying for the drainage of the following lands in townships 26 and 29, within the boundaries of the said Corporation, comprised within the following boundaries, viz.:

From the north-east corner of section 24, township 26, west to the north-east corner of section 26, thence north to Hope Slough, thence following the meanders of Hope Slough to the north-east corner of section 31, township 29, thence south to the mountains, thence along the base of the mountains to the point of commencement.

And whereas with such purpose in view the said Council procured an examination to be made by A. O. Meara, civil engineer, being a person competent for such purpose, of the said locality proposed to be drained, and has also procured plans and specifications and estimates of the work of construction to be made by the said A. O. Meara, and an assessment to be made by him of the lands to be benefitted by such work, stating as nearly as can be the proportion of benefit which, in his opinion, will be derived in consequence of such work, by every section, part of section, or lot; the said assessment so made by him being the assessment hereinafter by this by-law enacted to be assessed and levied upon the sections, part of sections, and lots hereinafter in that behalf specially set forth and described, and the report of the said A. O'Meara in respect thereof and of the said work being as follows:

CHILLIWHACK, B. C., December, 1893.

To the Reeve and Municipal Council:

GENTLEMEN—In accordance with instructions received from your honourable body I proceeded to make an examination and survey of a certain area of low lying lands in the vicinity of Elk Creek so as to devise the most effectual means of draining the same and of dealing with the Ford and Elk Creeks, the present bed of which streams not being of sufficient capacity to carry the waters after an ordinary freshet, it results that the overflow renders the low lands adjoining totally useless, and the efficiency of the lateral ditches discharging into the creek is destroyed, caused by the backing up of the water. I would recommend as the most effective plan of disposing of these waters, that the above named creeks be diverted into the Hope Slough, and from levels taken I find this quite practicable and attended with no difficulties. The construction of a diverting ditch, located and of the dimensions as herein stated, would carry the waters of the creeks and provide a perfect drainage to all lateral drains discharging both into the proposed ditch and present bed of the creek, viz.:

Beginning at Hope Slough at the north-east corner of the north-east ¼ of section 36, township 26, thence south crossing Trunk and Chilliwack Central roads to nearly south-east corner of south-east quarter of section 25, thence on a south-westerly course through part of the north-east ¼ of section 24, to Elk Creek, a total length of 9,992 feet.

The bottom of the ditch to be a width of ten feet and an average depth of from 5 to 7 feet on the minimum grades, and a bottom width of 7 to 8 feet, with a depth of from 4 to 6 feet on the maximum grades with slopes of 1 to 1. I would suggest that a flood-gate be constructed at the head, as it is necessary that a certain percentage of water be allowed into the old bed in the dry season of the year. I estimate the total cost of this work at (\$5,000) five thousand dollars, including surveys, contingencies, &c. I estimate the

cost of the work connected with the Elk Creek diverting ditch as follows :

BURNABY BY-LAWS.

A BY-LAW

To provide for Draining and Dyking of Parts of the District of Burnaby, and for Borrowing on the Credit of the Municipality the Sum of \$10,038.00 for completing the same.

[Provisionally adopted the 16th day of September, A.D. 1893.]

WHEREAS a majority in number and value of the owners, as shown by the last revised Assessment Roll, of the property hereinafter set forth to be benefited by drainage and dyking, have petitioned the Council of the District of Burnaby, praying that the Council should, in virtue of the "Municipal Act, 1892," and Act amending the same, procure an examination to be made by an engineer or land surveyor of the low land situated between the line of road as formed or staked out of the North Arm Road on the one side and the north bank of the North Arm of the Fraser River on the other side, so far as the same is within the District of Burnaby, and also plans and estimates of the dyking and drainage work by such engineer or surveyor and an assessment of the lands to be benefitted by such drainage and dyking, stating as nearly as may be in the opinion of the engineer or surveyor the proportion of benefit to be derived by such drainage and dyking by every road, lot, or portion of lot, and thereafter to pass the necessary by-law and carry out the other provisions of the Municipal Acts in reference to draining and dyking for providing funds for the work being done, levying assessments and carrying out the work, and generally to do, or cause to be done, all that is necessary and lawful in the circumstances;

And whereas, thereupon, the Council procured an examination to be made by Mr. J. W. Vaughan, Provincial Land Surveyor, in New Westminster (being a person competent for such purpose), of the said

locality proposed to be dyked and drained, and has also procured plans and estimates of the work to be made by the said J. W. Vaughan, and an estimate to be made by him of the land to be benefitted by such draining and dyking, stating as nearly as he can the proportion of benefit which, in his opinion, will be derived in consequence of such draining and dyking by every lot or portion of lot, the assessment so made being the assessment hereinafter by this by-law enacted to be assessed and levied upon the lots and parts of lots hereinafter in that behalf specially set forth and described, and the report of the said J. W. Vaughan in respect thereof, and of the said drainage and dyking, being as follows :—

ENGINEER'S REPORT.

NEW WESTMINSTER, Sept. 16th, 1893.

To the Reeve and Municipal Council of Burnaby :

GENTLEMEN,—I have the honour to report that, in accordance with instructions received from Alex. Philip, Esq., Clerk of your Municipality, dated June 6th, 1893, I proceeded in July to make examinations, surveys, estimates, and schedule of assessment for the construction of drains upon certain low-lying lands on the North Arm of the Fraser River, within your Municipality. And I recommend that the work be carried out as follows, as shown upon the general plan and in the specifications submitted herewith :—

Beginning at the south-easterly corner of Lot 173, upon the bank of the Fraser River ; thence proceeding down the river along the bank, construct a ditch of the dimensions set forth, the material to be thrown upon the side of the ditch next the river to form an embankment, or dyke, said ditch to extend to the south-westerly corner of Lot 161.

Beginning at Station 14+44 on the traverse line at the base of the hill, on Lot 155A; thence easterly along the base of said hill to Station 34+07, construct a ditch of the dimensions set forth.

Beginning at the base of the hill on the line between Lot 155A and Lot 173, at point of intersection of traverse line; thence southerly along said lot line, construct a ditch of the dimensions set forth.

Beginning at the north-easterly corner post of Lot 155A; thence along the line between Lots 155A and 155B to the corner of Lot 155c, construct a ditch of the dimensions set forth.

Beginning at Station 2+30, at intersection of Byrne road ditch and traverse line at base of hill; thence westerly along the base of hill to the south-westerly post of Lot 161, construct a ditch of the dimensions set forth.

Beginning at a point on the Wiggins road, at the intersection of the westerly boundary line of the easterly portion of Lot 166, owned by John Wiggins; thence southerly along said westerly boundary to the river, construct a ditch of the dimensions set forth.

Beginning at intersection of traverse line at base of hill and the line between Lots 2 and 3, in the subdivision of Lot 162; thence southerly along said line between Lots 2 and 3 to the Byrne road ditch, construct a ditch of the dimensions set forth.

Beginning at a point in traverse line at base of hill in Lot 163, at intersection of creek at Station 56+30; thence southerly in a line parallel to the side lines of lots to the point of junction of the Byrne road ditch and the river, construct a ditch of the dimensions set forth.

Flood gates to be placed upon the ditches emptying into the river.

I estimate the cost of this work to be \$10,038, including preliminary and final surveys and incidental expenses, and I accordingly assess that amount as shown on schedule submitted herewith.

I would further recommend that in case any ditches or dykes already constructed are used, an allowance be made the owners of the value thereof, upon the basis set forth in the estimates.

I have the honour to be, Sirs,

Your Obedient Servant,

J. W. VAUGHAN.

Be it therefore enacted by the Reeve and Council of the Corporation of the District of Burnaby, pursuant to the provisions of the Municipal Acts:

1. That the said report, plans and estimates be adopted and the said drainage and dyking works and other works connected therewith be made and constructed in accordance therewith.

Certified Copy of a Report of a Committee of the Honourable the Privy Council, approved by His Excellency the Governor-General in Council on the 10th November, 1893.

ON A MEMORANDUM, dated 26th October, 1893, from the Minister of the Interior, stating that his attention has been called to the fact that the affidavit under Forms D, F, G and H, respectively, which is required to be made by a person obtaining a homestead entry in the Railway Belt in British Columbia, does not correspond exactly with the Regulations as they are worded at the present time, the applicant being required to swear that he does not own any lands in the Railway Belt, whereas section 13 of the Regulations provides that anyone may get a homestead who does not hold or own by pre-emption record or otherwise, under the laws of the Province of British Columbia, more than 160 acres of land in the Railway Belt.

The Minister therefore submits for sanction by Your Excellency the accompanying annexed Forms of Affidavit, which have received the approval of the Department of Justice.

The Committee submit the same for Your Excellency's approval.

(Signed) JOHN J. MCGEE,
Clerk of the Privy Council.

To the Honourable
the Minister of the Interior.
